

FOR IMMEDIATE RELEASE

Indecomm Global Services Document Management Group

Reaches New High with 900 County Milestone

Growth in eRecording Space Driven by InteleDoc Direct™ with Recopedia ToolKit

- Indecomm hits 900 mark
- Milestone represents a 15% increase in participating recording counties from 2015
- Indecomm provides eRecording services to the majority of recording jurisdictions nationwide

St. Paul, MN – August 25, 2016 - Indecomm Global Services, a leader in business process outsourcing, learning, and technology solutions, announces that its eRecording services are being utilized in over 900 counties nationwide. This puts Indecomm within striking distance of its goal of reaching 70% of the US population with eRecording services. The entire market for eRecording is more than 1,500 jurisdictions, which represents 76% of the US population.

Indecomm's eRecording growth has been fueled by its eRecording platform [InteleDoc Direct™ \(IDD\) with Recopedia](#), Indecomm's national recording toolkit, and the acceptance of eRecording as a best practice for improved efficiencies and lower costs. Indecomm offers title companies and lenders the ability to submit documents to counties through its eRecording or mail-away services. eRecording is available as either full service or through SaaS access for the clients.

“As the public sector powers ahead with the adoption of electronic recording technologies, Indecomm stands at the forefront of this trend through innovation,” said Rajan Nair, CEO, Financial Services Division, Indecomm Global Services. “Ever more lenders and title companies are embracing Indecomm’s eRecording platform enhanced by Recopedia.”

Recopedia provides county recording checklists that can help reduce rejects and gives visibility into recording fee discrepancies, utilizing its up-to-date fee calculator.

“We at Indecomm are extremely proud of our Document Management Group as they lead the vanguard of technology adoption in the public sector. This serves our clients and the general public, offering value added tools and more secure recording,” said Naresh Ponnappa, Group CEO and Managing Director, Indecomm Global Services. “Indecomm’s efforts continue to raise the bar on technological excellence and customer service.”

Indecomm’s commitment to eRecording extends over a service record of 30 years. In addition to eRecording and mail-away recording, Indecomm provides the industry with final document management, post-closing audit, assignment services, and lien release services.
