

# Automate Over 70% of Mortgage Tasks

Improve productivity time-per-loan by employing pre-programmed bots on up to 70% of your repeatable middle-office mortgage tasks

## Deploy Digital Workers to Power Dozens of Processes

Automating your middle-office using RPA should not equate to lengthy project timelines, wasted technology resources, or an over-extended budget with uncertain ROI. Indecomm’s BotGenius solution was designed to simplify access to RPA automation by providing lenders with a set of “drop-in” bots, preconfigured, on-demand, and ready to deliver ROI on day one of deployment.

Emulating human-to-computer interaction on your most time-consuming tasks, BotGenius:

- Maximizes agent productivity, keeping your loans moving quickly through the process
- Standardizes and streamlines repeatable and routine tasks in set-up, loan processing, and communication
- Enables faster and more efficient loan processing, generating significant time savings
- Improves borrower engagement, lowering the mortgage loan abandonment rate and reducing the window of time for competitive shopping

## BotGenius Handles Common Middle Office Mortgage Tasks\*

### Set Up

- ✓ Orders appraisal, flood, title reports 4506-T, CDA, USPS validation, MI

### Processing

- ✓ Reviews appraisal, flood, fraud, title and performs compliance checks

### Communication

- ✓ Order disclosures, generate COC, generate denial letters

# The Genius Behind Bot-Driven Mortgage

Built by mortgage industry experts with first-hand mortgage operations process expertise, BotGenius works together with your loan origination system (LOS) to automate and complete high-volume tasks and unify workflow.

BotGenius out-of-the-box automation helps lenders:

- Order disclosures and generate adverse action communications
- Verify and validate third-party data reports such as flood, fraud, credit, and appraisal
- Get the benefits of automation without the management; BotGenius is completely managed by Indecomm, keeping your technology and operations teams focused on innovation

- ✓ **Success-based approach**  
We work with you to establish ROI upfront to track benefits realization. With BotGenius, you only pay for successful transactions!
- ✓ **Fast implementations**  
BotGenius robots are available on-demand for quick integration with your existing origination technology and process
- ✓ **No lock-ins**  
You will not stop using BotGenius once you start, however, we won't lock you into license contracts, license costs, or expensive upgrades
- ✓ **Hands-free maintenance**  
Get the benefits without the hassle. Our robotics operations center (ROC) manages and maintains BotGenius, freeing your IT team up!
