

Audit Loans at Scale

Simplify mortgage portfolio risk management, streamline QC, and lower origination costs with audit automation

The AuditGenius® Difference

AuditGenius utilizes the power of data and automation to improve loan quality, identify defects, and strengthen risk management.

AuditGenius gives you control over your lending risk and your ability to meet loan quality requirements by providing a holistic view of risk across multiple production channels. On a single platform, it audits and tracks loans, producing flexible reports on pre-closing/funding, post-closing/pre-delivery, collateral review, due diligence, and compliance.

With AuditGenius, you have visibility into loan-level errors and patterns of defects, along with the responsible parties and loan types identified.

Its easy-to-use Genius Business Intelligence dashboards allow you to see exactly what's happening so you can manage your business more effectively.

AuditGenius automates:

- Loan Setup
- LE/CD Comparison Review
- HMDA Review
- TRID Reviews
- Document Date Comparison
- Servicing on-boarding QC

Beyond AuditGenius, we QC:

- Pre-funding
- Post-closing
- Compliance
- Custodial document audit
- Securitization
- MSR review
- FHA insurance and delivery
- Pre and post-closing

The Genius Behind Smart Loan Audits

AuditGenius® extracts data from your borrower, loan, closing, and compliance documents, leveraging machine learning to compare data and capture errors quickly and accurately. Using AuditGenius®, you get a front-row seat to the audit task progress in real time, enabling you to quickly pinpoint troubling trends or prioritize the next steps.

AuditGenius®:
