

AI-Enabled QC Platform

Simplify mortgage portfolio risk management, streamline and scale QC, and lower origination costs with audit AI & automation.

The AuditGenius® Difference

AuditGenius is a SaaS QC platform that utilizes the power of AI and automation to analyze loan quality, identify defects, and strengthen risk management. AuditGenius streamlines the entire QC process at any stage of the loan lifecycle, producing valuable insight on loan quality and operations. AuditGenius:

- Supports unlimited workflows, audit types, and checklists with a one-time login
- Delivers a broad and granular view of risk including loan errors, responsible parties, and defect patterns
- Provides a wide range of reports on various audit types
- Delivers dashboards configured for user-specific needs, Fannie Mae compliance requirements, or custom workflows
